### CAREER OBJECTIVE

---

Motivated and detail-oriented Computer Science Engineering graduate seeking an opportunity to begin a professional journey in the IT industry. I aspire to contribute to innovative projects by applying my academic knowledge, problem-solving abilities, and keen interest in emerging technologies. Committed to continuous learning and dedicated to delivering quality-driven results while growing as a valuable team member in a dynamic work environment.

### EDUCATION

---

- University College of Engineering and Technology MGU, Nalgonda –B.Tech** Dec 2021 - April 2025  
Computer Science and Engineering Percentage: 77%
- Manchikanti Yadagiri Junior College , Bondangiparthi –Intermediate** June 2019 - June 2021  
MPC Percentage: 95%
- Zilla Parishad High School ,Chandur** June 2018 - June 2019  
SSC Percentage: 88%

### TECHNICAL SKILLS

---

- Programming Languages** : Python, Basics of Java, Basic of C, C++.
- Web Technologies** : HTML, CSS, JavaScript.
- Database Technology** : SQL Server, Oracle
- Tools & IDEs** : VS Code, Eclipse.
- Version Control** : Git, GitHub.

### PROJECT

---

- Indian Currency classification using Deep Learning Techniques**
  - Built a model to recognize Indian currency notes using deep learning.
  - Used CNN, VGG-11, and VGG-16 algorithms to improve accuracy.
  - Collected image data from Kaggle and cleaned it for training.
  - Used Python and Jupyter Notebook for coding and testing.
  - CNN gave the best results with high accuracy and less time.
  - Helped in detecting fake and damaged currency notes.
  - Project includes steps like data collection, preprocessing, model building, and evaluation.
  - Future improvements include real-time detection using mobile devices and using Blockchain for secure results.

### SOFT SKILLS

---

- Project Management Skills.
- Learn new concepts.
- Communication Skills.
- Time Management.
- Problem Solving.
